

OUTDOOR COLLECTION

VANELLI

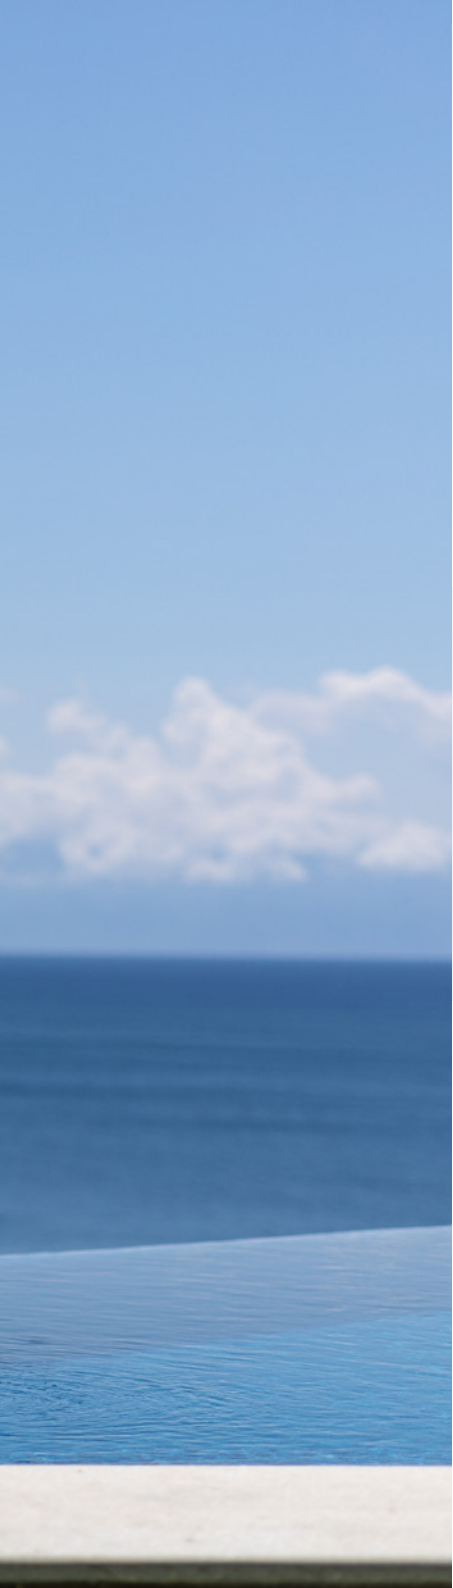

Vanelli Outdoor Collection

Vanelli is committed to combining sustainability, technical excellence, quality and design, providing both inspiration and peace of mind to customers.

From Yarns to Emotions

Vanelli outdoor fabrics combine impeccable performance and technology with elegance and comfort. Created for function and woven with passion, the Vanelli outdoor collection promises elegance and aesthetics combined to a carefree experience.

“Going into the garden is the new going out”

Personal garden and outdoor space, as well as pool and spa-areas are growing in importance in not only contract settings, but also in residential interiors

The exclusive Vanelli Outdoor collection marks a new chapter for outdoor settings featuring all the the most important easy-care and durability characteristics expected for outdoor use as well as challenging spaces indoors

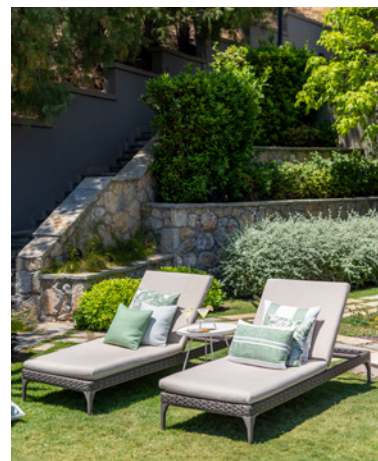

We control the production starting
from yarns and guarantee high
performance

The Vanelli outdoor fabrics are woven from solution-dyed acrylic and olefin yarns. Let us guide you through the journey which starts from the yarns.

—Chic

Meet the poetry beyond the trends. We weave light and shadow, forms and emotions into patterns, textures, colours and moods.

—Tropical

A tropical perspective. We bring elegance and ease to outdoor living spaces with UV-resistant low-maintenance fabrics that resist mold and mildew and are bleach cleanable.

— Marine

Feel the marine breeze. We offer fabrics with breathable comfort, soft hand and colors engineered to long-lasting brightness for the moments at the sea or poolside.

—Elegance and Function

For a day on the patio, a warm, welcoming, and inspiring touch. Design and functionality that meets all expectations. The Vanelli outdoor collection exemplifies elegance and beauty in high technological functionality.

Vanelli outdoor fabrics combine
impeccable performance and
technology with elegance and
comfort.

Excellent dimensional stability

Outstanding easy-care characteristics

High resistance to the eroding effects of sunlight

Natural softness and breathable comfort

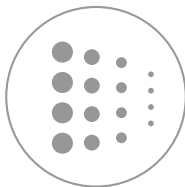

Brilliant colours and superior colour-fastness

Stain and water repellent

Durability and mold/mildew resistance.

Resistant to moths and damage by chemicals.

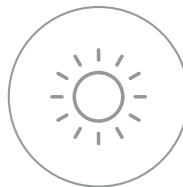

Bleach cleanable

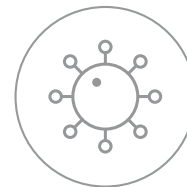

UV and Fade

Care

Vanelli outdoor fabrics are durable with soft hand, perfect for outdoor upholstery items such as sofas, chairs, cushions, pillows and sheers. The fibres are naturally water-resistant and dry up very fast, which makes the products ideal for poolside and spa use.

Stains can be easily removed by hand using warm water (not more than 40 degrees) and a neutral soap, by brushing the fabric and rinsing it. Vanelli outdoor fabrics can also be laundered in a washing machine at 30 degrees with liquid detergent using a low-speed spin-dryer with less than 800 cycles.

Solution dyed

We weave our outdoor fabrics from solution-dyed acrylic and olefin yarns. Solution-dyed fibres are man-made fibres in which the pigment is added to the polymer-solvent before extracting the fibres. As a result, the colour pigments are inherent to the fibre. This gives the resulting fabrics bright, deep colours and superior colour fastness over a long period of time, even in bright sunlight. The difference between yarn-dyed and solution-dyed fibres can be demonstrated by comparing a carrot and a cucumber. A carrot is coloured throughout, while a cucumber's colour only is on the surface.

Solution-dyed acrylic and olefin fabrics have bright, fade-resistant colours with a high luminosity. They have outstanding stain and water repellency properties, are easy to clean and are mold and mildew resistant.

Yarn Dyed

Solution Dyed

A modern outdoor lounge area featuring a wooden deck with a herringbone pattern. In the center, there is a circular wicker coffee table with a glass top, surrounded by three wicker armchairs with black cushions and patterned pillows. A large, dark, rounded planter holds a small green plant. In the background, a large planter wall filled with tall, spiky green plants separates the lounge from a modern building and a hillside under a clear blue sky.

A special experience
that adds elegance to
usage areas.

Test Results

TEST	STANDART	RESULT
Color Fastness to Light	EN ISO 105 B02	4-5 (Gray Scale) / 7-8 (Blue Scale)
Water Repellency	EN ISO 4920	ISO 4-5
Oil Repellency	EN ISO 14419	6
Weather Fastness	ISO 105 B04	4-5 (Gray Scale) / 7-8 (Blue Scale)
Pilling	EN ISO 12945-2	4

Color resistance is tested according to the specifications of international standard EN ISO 105 B04. This fabric standard measures color stability by artificially reproducing outdoor conditions (UV rays and weather). The test is carried out over 1,000 hours, which corresponds to one year of sun exposure in the south of France.

Garden is the new going out.
